

REACH – Registration, Evaluation, Authorisation and Restriction of Chemicals

All queries relating to the above should be addressed to:

Tim Weeks
tim@finecut.co.uk
+44 (0) 1903 751666

We receive assurances from our suppliers that substances we are using within the scope of REACH were pre-registered before: 30th November 2008.

None of the substances we use are likely to be substances of very high concern (SVHC).

We believe we have sufficient information to ensure that both our suppliers and ourselves can continue to supply all materials/parts within the full registration and effectively incorporate our uses as Identified Uses within the meaning of REACH.

Should you have any queries please do not hesitate to contact me.

Yours sincerely,

Tim Weeks
